FOR IMMEDIATE RELEASE
March 2008

Tom Elliott, Sr. Vice President
Saint Vincent Allied Health Services

Saint Vincent Endoscopy Center Erie, Pennsylvania

A High-Performance Joint Venture

Barry Tanner, CEO & President
Physicians Endoscopy

Saint Vincent Health System and Physicians Endoscopy officials are pleased to announce the creation of Erie's first freestanding endoscopy facility – Saint Vincent Endoscopy Center. The new center will be located in the Saint Vincent medical suite in Yorktown Center on West 12 Street. Key outpatient services, including Saint Vincent Sports Medicine, the Saint Vincent Imaging Center, and a Rehab Solutions branch are also housed in the suite.

The new Saint Vincent Endoscopy Center is another example of the Health System's continuing investment in the Erie community and commitment to providing high-performance care and service to all.

"Saint Vincent Endoscopy Center is another cooperative business venture between Saint Vincent Health

System and its physicians to provide patients with easy access to advanced services in a convenient location. Parking is even free, which

is always a plus," states Tom Elliott, senior vice president of Saint Vincent Allied Health Services.

Slated to open in the summer, Saint Vincent Endoscopy Center will be developed and managed with the assistance of Physicians Endoscopy, a nationally recognized leader in the

area of endoscopic ambulatory surgery centers. "We chose to work with PE after doing our homework to identify the best players in the endoscopic surgery arena," says Elliott. "PE has supported our efforts and provided guidance to us throughout this entire process. The PE team works closely with us to ensure a high-performance outcome for the center and its patients."

Barry Tanner, president of Physicians Endoscopy states, "It is a privilege to work with Saint Vincent Health System and its physicians. The development and management of endoscopic surgery centers is our only business, and we are completely committed to helping Saint Vincent deliver the best possible facility and services to its patients. The cooperation and support of Saint Vincent in this joint effort has been overwhelmingly positive."

Physicians Endoscopy is a nationally recognized development and management partner for single-specialty endoscopic ASCs.

The company currently operates 14 partnered facilities and will open five additional facilities in the next 12 months.
