

Overlake Internal Medicine Associate, located in Bellevue, Washington is committed to providing clinical excellence and leadership in our specialty fields. Many of our physicians have devoted much of their lives to the success, growth and reputation of Overlake Internal Medicine Associates.

Physician owned and operated, we are a people-oriented, and service motivated multi-specialty practice. As our organization has grown from its origins of Primary Care medicine to include Cardiology, Gastroenterology, Oncology, Pulmonary, and Sleep Disorders specialties we have also grown our internal support resources and technology to ensure we are able to meet or exceed the needs and expectations of our patients.

Due to steady growth, the gastroenterology practice is looking for fellows and physicians to join their successful practice and are offering the opportunity for immediate buy-in to its ASC.
